

CODE OF ETHICS & CONDUCT

A MESSAGE FROM OUR GROUP CHAIRMAN

First of all, I would like to thank EGYTRAFO's Group staff for their dedication and our clients whom we have been dealing with since 1979, for their trust and success that we have achieved, looking back on the previous years and remembering every moment of hard work, deadlines met, challenges and competitions, those were the significant stimulants that enhanced our emerging experience since we began.

Our history started since we established our trading company ETCO in 1979 in which we were trading in electrical equipment as Transformers, HRC fuses, lighting arrestors and Nickel Cadmium Batteries. Due to our strong beliefs towards the Egyptians' qualifications and the importance of locally produced product, we established EGYTRAFO Group was established in 1994 which became a leading manufacturer of Oil Transformers up to 15 MVA, 33KV and Nickel Cadmium Batteries up to 800 Ah.

The success that EGYTRAFO Group proved to all its customers as well as perceiving exactly the market requirements encouraged us to step forward towards our dream in 2007 where we launched the first local Dry Type Cast Resin transformers factory in the Egyptian market that produce ratings up to 3.6 MVA, 33 KV.

In 2013, we have also established "TrafoTech manufacturing PLC" factory in Ethiopia for the production and maintenance of Oil Transformers.

As we always believe in meeting the market requirements, EGYTRAFO Group launched the first Off Load Auto Transformer in the Egyptian electrical network in 2013 due to the EDC complain of the voltage reduction in some locations in the network. Later on, in 2019, EGYTRAFO Group has improved its product by adding some features and now the product is an Automated Auto Transformer, providing an On Load Tap Changer that can be manually, remote and automatically operated. Our most important key factors of reaching this success are our product's quality and the team's dedication to compete locally and globally. Therefore, our quality assurance team ensures the compliance of the latest IEC and ISO standards for our products to be internationally accepted. Our Oil and Cast resin transformers are "KEMA" certified. One of our main objectives is to maintain continuous quality improvement & staff development along with safety regulation. Clients trust, experience, high quality and success are our main driving factors that we depend on in making our future business.

Our most important key factors of reaching this success are our product's quality and the team's dedication to compete locally and globally. Therefore, our quality assurance team ensures the compliance of the latest IEC and ISO standards for our products to be internationally accepted. Besides, our Oil and Cast resin transformers are "KEMA" certified. One of our main objectives is to maintain continuous quality improvement and staff development along with safety regulation. Clients trust, experience, high quality and success are our main driving factors that we depend on in making our future business.

Last but not least EGYTRAFO's Group main goal is to grow and expand our activities in order to increase its market share. We do believe that our mission never ends.
